RAHAF HAMDAN ALSHAIBANI

Riyadh, Saudi Arabia | +966501780242 | rahafauii@gmail.com | LinkedIn | GitHub

SUMMARY

Junior Developer and Cybersecurity Student with a strong background in full-stack engineering, threat detection, and AI integration. **Winner of the Most Promising Product Award at Tiqanah's BUILDx**, 2nd place winner at Alinma Madarik Bootcamp, and selected among the top 140 participants for Misk's Agentic AI Program. Built multiple end-to-end projects in fraud detection, defense systems, healthcare AI, and team-formation intelligence. Adaptable, results-driven, and skilled in fast-paced technical environments.

EDUCATION

Diploma in Cybersecurity — IMSIU, Riyadh *2024 – Present | GPA: 4.81/5*

Computer Programming — PNU, Riyadh *Graduated 2024*

EXPERIENCE

Software Development Trainee — King Fahad Medical City *2024*

- Built a full-stack bilingual (AR/EN) training management system using React & MySQL, supporting 50+ trainees and streamlining training management workflows.
- Collaborated with stakeholders to gather requirements and deliver production-ready features.
- Monitored system performance and resolved issues proactively.

PROJECTS

Takamul (تكامل) — AI Team Formation Platform | *BUILDx by Tiqanah · Most Promising Product Award*

- Built the brand identity and front-end of an AI-powered platform that matches employee skills to project roles using multi-criteria decision-making (MCDM), detects skill gaps early, and recommends the best team composition for PMOs, as part of a 4-member team.

Sanad — Smart Banking Platform | *Alinma Madarik Bootcamp · 2nd Place Winner*

- AI financial assistant (Sanad AI) that analyzes income and spending to build personalized savings plans, plus a cashback-driven "Sanad Streak" feature to encourage consistent saving.

Dara' (درع) — Unified Cyber Defense System | *Tuwaiq Academy · Defense-thon Hackathon*

- SOC-style platform protecting critical and defense sectors through real-time monitoring, big-data analysis, and automated incident response.

CyberMind AI — Fraud Detection Assistant | *AI-Native Engineering Camp*

- Proactively detects phishing links, fake sites, and impersonation attempts, with a simplified interface for non-experts and elderly users.

MediScan AI — Medical Imaging Platform | *Tuwaiq Hackathon*

- Analyzes radiology scans on upload to deliver preliminary diagnoses and flag suspicious regions, speeding up clinical decision-making.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C#, HTML, CSS
Frameworks: React, Next.js, Node.js, Tailwind CSS
Databases & Tools: MySQL, Firebase, Supabase, Git, GitHub
AI & ML: Anomaly Detection, Classification, Computer Vision, OpenAI API, Gemini AI
Cybersecurity: Network Security, Cloud Security, Threat Detection & Response

CERTIFICATIONS & TRAINING

- **BUILDx Program — Tiqanah x King Saud University Student Partnership Program** (28 hours); awarded Most Promising Product
- **Agentic AI Program (Masar Cohort 2) — SANI x Misk Foundation | 2026** — Selected among top 140 participants out of 6,000+ applicants (Top ~2.3%); intensive technical track spanning Agentic AI, Cyber Security, and Software Engineering integration.
- AI-Native Engineering Camp — OSSVision x Tuwaiq Club, Imam Mohammad Ibn Saud Islamic University | May 2026
- Cloud Computing Security — Tuwaiq Academy
- Game Design and Programming — Tuwaiq Academy
- AI & Quantum Computing in Cybersecurity | Introduction to Generative AI | Intro to Robotics Building & Programming — VTech, Vision & Technology Camp
- AI Concepts and Advanced Applications — SDAIA
- Cybersecurity Essentials | Python for Beginners | Design Thinking

LANGUAGES & COMPETENCIES

Arabic (Native) | English (Professional Working Proficiency)
Critical Thinking | Teamwork | Fast Learner | Adaptability | Time Management
